

Iran Medical Info has been launched as an up-to-date health and medical magazine of Iran and the world, with the aim of informing and increasing awareness and knowledge related to the field of health and medicine in a simple and understandable language for the general public.

All health and medical content is automatically collected, processed, categorized and republished using the latest and most advanced methods from the most visited and most reliable media, news agencies and popular Iranian and foreign magazines using smart robots without human intervention.
